15th ARDF World Championships 13-18 September 2010 Opatija, Croatia

CROATIAN AMATEUR RADIO ASSOCIATION (HRS) is pleased to invite ARDF teams, individual competitors, visitors and guest from all over the world to the 15th ARDF World Championships to be held in Croatia during September 2010.

Venue:

OPATIJA - is the most popular sea resort in Croatia, at the Adriatic coast, 175km far away from Zagreb.

Opatija, often called the Nice of the Adriatic, is one of the most popular and the oldest tourist summer and winter destination in Croatia, and a place with the longest tourist tradition on the eastern coast of the Adriatic and one of the most elite resort in Croatia today.

OPATIJA - this elegant tourist destination, lies at the centre of the Riviera with the longest tradition of tourism in Croatia. The very attractive geographic position, enabling its warm seas to be quickly reached from many cities in **Central Europe** (only about 90 km from Trieste in Italy, 500 km from Milan, Vienna and Munich), lush green scenery and a pleasant climate (45° 20' north latitude) were some of the main reasons for its beginning and the quick development of its tourism at the end of the 19th century. It became a fashionable destination for the Austrian imperial family and Austrian nobility, especially for the Austrian emperor Franz Joseph I who used to spend a several months in Opatija during a winter period and enjoyed it's mild, favorable climate. Built mainly at

the turn of the 20th century, but many of late 19th-century luxury hotels and villas have survived to present times. **Opatija** has remained in complete harmony with Nature right up until the present day.

Well-maintained public gardens, the illuminated **12-km-long coastal promenade** known as the **"Lungomare"** (from **Volosko, via Opatija, to Lovran**). Well-kept beaches and fountains provide a stunning backdrop for the villas and hotels that cater comfortably for up to **6.000 guests**. Due to a relatively constant temperature (**winter average 7.0 °C, summer average 21.9 °C**), high air pressure and constant circulation of air, the climate in **Opatija** is relaxing and refreshing. The contrasts of sea and mountains, green parks and blue ocean, old buildings and modern comforts, noisy entertainment venues and quiet destinations for excursions all combine to make **Opatija** and its surroundings a very attractive tourist resort at any time of the year.

The tourist offering of Opatija includes its **congress centre** (with space for 500 to 800 delegates), **11 indoor swimming pools, wellness programmes, a casino, discotheques, a summer theatre with seating for 2.000, carnivals, festivals**, and opportunities for shorter trips to nearby surroundings or all-day excursions to the **Brijuni National Park, or Risnjak National Park, Plitvice Lakes, or even to Trieste or Venice in Italy**.

The characteristics of the climate have all the traits of a gentle Mediterranean climate with a warm sea, lots of sun and lush vegetation which paints a picture of **Opatija** as a kind of green oasis. Summer temperatures are relatively low because of the cool breezes to come from the Učka mountain while in winter, the temperature is relatively high. **Opatija** is also a place for business meetings throughout the entire year, as well as a center for convention tourism, scientific gatherings and congresses.

The Pearl of Kvarner, Opatija is an ideal starting point for an inspired walk through the past of this region, as well as for taking pleasure in the intimacy of the still untouched present.

In behalf of Organizing Committee we are promising to do our best to make this event unforgettable for all of you.
