

2m Nordic Championship, day 2.

The 2m competition and the 80m youth and beginner track was the second competition of the Nordic Championship 2016.

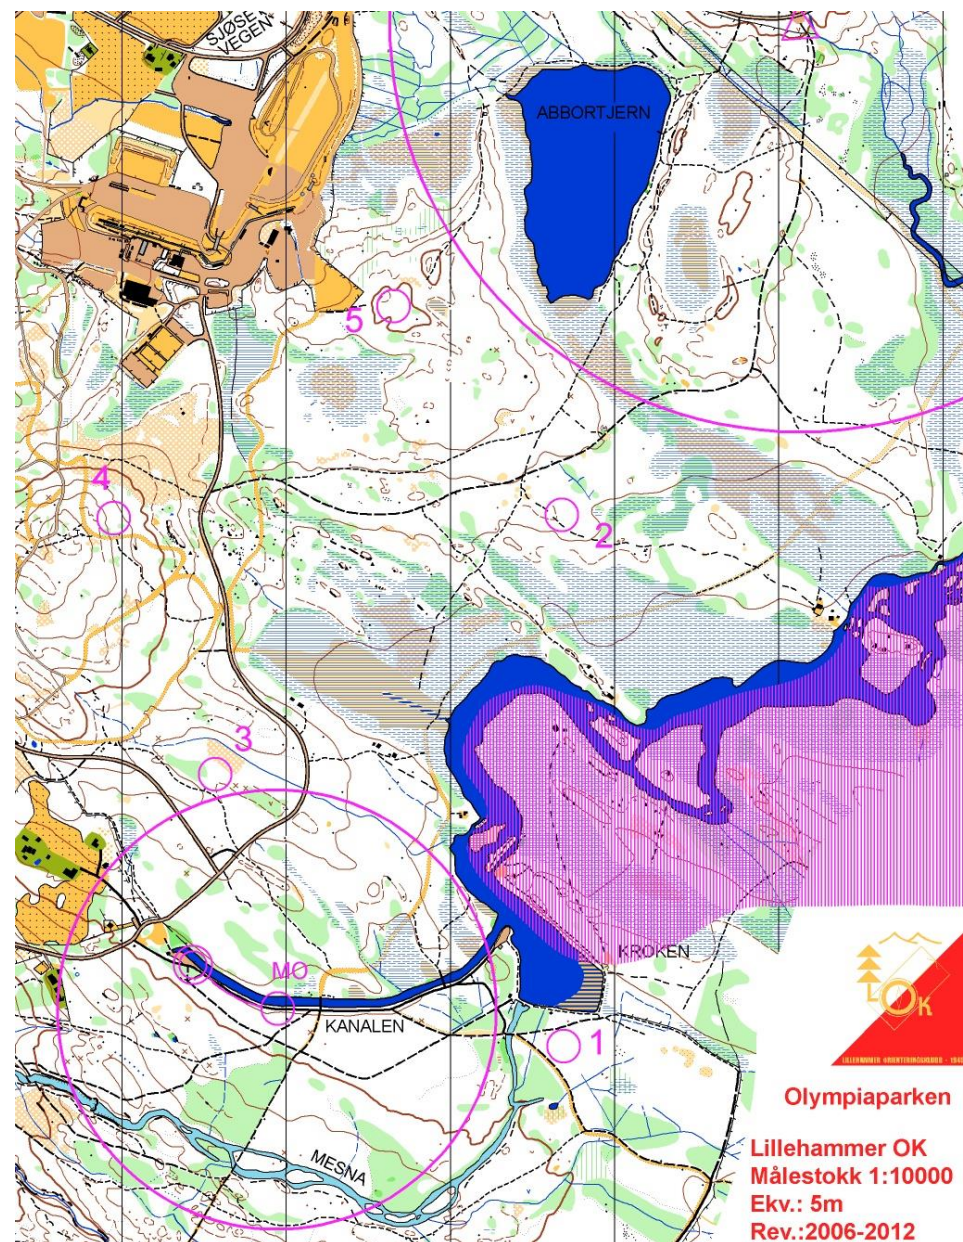

The 2m terrain was located not far from the even centre in a quite flat but marshy area. To avoid any risk of runners wanting to cross the stream, the area west of the river was marked out of bound.

The tricky bit was transmitter 5 and 1. The number 5 required the runner to monitor the direction when running along the path, and surprisingly many did that and had to go back from number 4.

Transmitter 1 was off frequency, and unfortunately not easy to detect as it was disturbed by the beacon. This was a little bit more challenging than if it was on the correct frequency.

Keijo Lehtosaari OH2ETM from Finland run a perfect 2m race and finished first as Nordic Champion. He was a little surprised of his good achievement, but it was very well deserved. Jitka Zakova from Sweeden did also make an excellent race and finished second place in the Nordic Championship, She was also a little surprised by her results, but we know she has long experience and has won the competition before.

The finish corridor was along a canal, and the 80m youth and beginner track start and finish was from this location.

Nordic Championship 2015

Results with split time for the sprint competition

Results are divided into age classes, overall classes and a complete visitor and Nordic list of results.

Beginner- youth 80m
